

# Letter of Intention - Maps of Making Project

---

I, **Marius Araújo**, Fab Manager of \_ARTERIA\_LAB, a maker space of the University of Évora, Portugal, representing **approximately 1000** makers and users across **the Alentejo region**, express our intention to participate in the Maps of Making federated commons project.

We understand that Maps of Making will:

- Create a federated commons infrastructure for makerspace mapping
- Ingest data directly from individual makerspace websites and sources
- Display aggregated data on a unified map
- Provide map infrastructure that networks can also embed and use

We intend to:

- Facilitate communication between the Maps of Making team and our member spaces
- Encourage our members to participate in workshops and share their needs
- Share project updates and communication materials with our member spaces
- Support the development of this commons infrastructure
